

The celestial shadowy serpent has moved houses today with its head, Rahu, leaving Kanya and entering Simha, and its tail, Ketu, leaving Meen and entering Kumbh. This transition of Rahu-Ketu from dual natured signs to fixed signs has happened in the early hours today. These two chhaya grahas Rahu and Ketu will stay in this Leo-Aquarius axis till 18th August 2017 and will then enter the movable signs Cancer and Capricorn.

The previous transit of Rahu in the Leo and Ketu in Aquarius was from 24th June 1997 to 11th January 1999. The next such transit will be from 5th September 2034 to 24th March 2036. Rahu and Ketu have a steady and approximately eighteen month long transit in a sign and they return in the same sign after a period of around eighteen years.

During this transit in Simha-Kumbh axis, Rahu and Ketu will form some interesting combinations and yogas with other planets. Rahu has joined Brihaspati in Simha as it has entered the last degree of this sign today. For those who are new to Jyotish, Rahu and Ketu are always in retrograde motion and they enter a sign through its 30th degree, unlike the other planets which enter a sign through its first degree in direct motion. Brihaspati will leave Simha to enter Kanya on 11th August 2016.

Rahu and Ketu will be in Kendra with Shani, which is in transit in Scorpio, till 26th January 2017. Mars joins Shani in Vrishchik on 20th February 2016 and will stay there till 18th September 2016. Mangal will be with Ketu in Kumbh from 11th December 2016 to 20th January 2017.

The Rahu-Shani yoga in mutual fourth-tenth placement from each other is not favorable for common masses. It causes great economic losses, famines, unrest and war. If we throw in Mars too in this combination then the chances of large scale war and resulting destruction are greatly enhanced. This transit of Rahu in Simha is not going to be peaceful for mankind.

For India, this transit is going to happen in the fourth-tenth houses axis, Rahu in fourth house and Ketu in tenth. Sudden and intense problems will trouble the government and the ruling party will face the most damage to its credibility. Internal unrest will increase. The chances of riots on basis of religious and communal reasons are very high. The government will resort to harsh measures to control the damages which will in turn harm the democratic freedom and the economic progress of the nation. Real estate will go through a really bad phase as Rahu is transiting in the fourth house which governs real estate.

The effect of this transit of Rahu in Simha and Ketu in Kumbh on the twelve moon signs and ascendants will be as follows –

1. **Aries – Mesh:** Difficulties in educational pursuits; worries related to health and behaviour of children; sudden and big monetary gains; difficulties in profession.
2. **Taurus – Vrishabh:** Unexpected problems and changes in profession; worries related to property and residence; health problems related to heart and lungs; parents' health increases concerns.

3. **Gemini – Mithun:** More stability but increased burden of work in profession; trouble in relations with siblings; gains from foreign business and travels; better health.
