---

Today, Jupiter leaves Virgo and enters Libra, according to Jyotish calculations. This heaviest of all seven physical planets had entered Kanya on 11th August 2016. Both Kanya and Tula are not friendly signs for Jupiter and it gives results there which are unconventional and non-traditional for Jupiter.

Brihaspati will stay in Tula from 12th September 2017 to 11th October 2018. Its subsequent transit in Libra will be from 26th December 2028 to 25th January 2030. Its previous transit was from 28th September 2005 to 27th October 2006. Jupiter's transits in Libra in the last one century were as follows-

- 8th October 1910 to 7th November 1911
- 23rd September 1922 to 22nd October 1923
- 6th September 1934 to 6th October 1935
- 19th August 1946 to 17th September 1947
- 21st July 1958 to 17th August 1959
- 12th November 1969 to 11th December 1970
- 27th October 1981 to 26th November 1982
- 12th October 1993 to 11th November 1994

In Tula, a rashi owned by Shukra (Venus), Brihaspati is forced to sacrifice its disciplined nature and the inclinations to blindly follow the conventional traditions and beliefs. It becomes more flexible, adjusting and open to broader ideas and experimentation. This kind of a transit lays foundations for big changes or revolutions which are to happen in future.

Due to the effect of this transit of Brihaspati in Tula there will be good progress in research in medicine and the studies related to human mind and body. New breakthroughs in technology including information technology will happen. Industries like transportation, travel, hospitality and food will have good growth during this transit.

But, there are also high risks of spread of epidemics. Unrest among the deprived and suppressed can lead to revolts. As big powers lose patience and are inspired to break conventions there can be serious conflicts or war in several parts of the world.

Bullion, especially gold, will be affected by this transit. It can get dearer. The demand for gold will increase worldwide.

The influence of this transit of Jupiter in Libra on the twelve ascendants and moon signs will be somewhat as follows -

1. **Aries - Mesh:** Improvement in health; increase in body weight; good progress in professional pursuits; reduction in wasteful expenses; increase in income; long distance travels; improved confidence; good relations with relatives and family members; high chances of marriage for the unmarried and eligible ones; satisfactory and devoted love life.

2. **Taurus - Vrishabh:** Health problems; increase in debt; wasteful expenses; legal hassles; souring of relations with friends over monetary issues, increased tendency to show off and
