Astrologer Ashutosh: Vikas! yes, your ascendant is Gemini and your Moon sign too is Gemini. In 2009, Jupiter (Guru) was in transit in its sign of debilitation (Neech Rashi) for most part of the year. Also, it was in conjunction with Rahu, the planet responsible for worries, frustrations and failures. As Jupiter governs the career related factors in your horoscope you had lost your job and all efforts to get a new job had also been in vain.

The present transit of Jupiter in Pisces (Meen) is very beneficial for you regarding your job. Keep trying and you will get a good job in last two weeks of June 2010. Your job will be in IT sector or a related field. Your financial condition will improve much by October 2010 and over the next five years it will improve more with maximum gains coming in 2011 and 2012.

Remedies: Avoid wearing Red and Grey in clothes. Keep fasts on Saturdays. Wear a white sapphire or an Opal in silver ring on ring finger of right hand as a gemstone for Venus (Shukra). Develop more patience and consistency. Avoid intoxicants of all kinds.
