Roopal Asks: Will I get married this year? If so, is Kanya (Virgo) moon sign suitable as a partner? My details: DOB - 24 Sep 1968, Time - 22:30 PM, Place - Kampala, Uganda.

Astrologer Ashutosh: Roopal, You were born in Taurus (Vrishabh) ascendant and Libra (Tula) moon sign. Presently, you are in Saturn-Moon antardasha which is favorable for your marriage. As Jupiter is in a opposition with Saturn in 2010, this is a good year for you to get married.

Looking at the all the planetary transits and their influence on your horoscope it can be said that you will get married in the October 2010. The person with whom you will get married will be good looking and intelligent and will be having a career in the fashion or the beauty industry.

Kanya Rashi is suitable as a partner for you. But, there are other factors too which must be checked in horoscopes before going ahead with a marriage. Consult a good astrologer if you are in any doubts about the proposals coming to you.

Remedies: Keep fasts on Thursdays. Donate a yellow garment to someone who needs it on one Thursday every month. Wear a gem for Venus, a white Sapphire or an Opal, on Friday morning.
