Rajasekhar asks: Namaskar Ji, My DOB is 31st October 1990, TOB is 2.37 AM and POB is Vijayawada, Andhra Pradesh, India. I am unemployed and am looking for a job for last 4 months. Can you please tell me when will I get a job and whether the job will be in the field of my education or not.

Astrologer Ashutosh: Rajasekhar! You are going through Ketu antardasha in the mahadasha of Budh since 26th September 2013. This antardasha combined with the negative effect of Rahu and Shani yuti has caused this break in employment for you. You were born under Leo (Simha) ascendant and Pisces (Meen) moon sign. The Ketu antardasha ends on 23rd September 2014.

The job situation will improve a lot after September 2014 when your Venus antardasha begins, but, before that, in the first two weeks of June 2014 you will get a good opportunities to appear for desirable job interviews. The actual joining may be delayed till the second week of July. You will face some initial difficulties of adjustment in the new job but by October 2014 you will start getting comfortable in it.

The new job will be in a field which will be quite new for you. It may mark a total change in the area of your profession. It will be indirectly related to your field of education but your day to day work there will not be much linked with what you have studied in the educational institutions. You will be required to improvise on your own, travel a lot and take up challenging tasks from time to time. The overall satisfaction and benefits in the new job will be quite high.

Wear a 5 carat Sindoori Coral in a gold ring on the ring finger of your right hand. Also, wear a 6 carat African Ruby in a gold ring on the ring finger of the left hand. These two gemstones will be highly beneficial for you in terms of finding a new job and then staying gainfully employed for long periods.
