Alakh Asks: Hello, Guru Ji. My DOB is 21 March 1982, TOB is 1 PM and the POB is Dhanbad, Jharkhand, India. I am continuously facing problems regarding job. When I get a job, after working for around two years I have to leave that job due to some or the other reason like health problems, low salary, etc. There are job offers coming my way but in every case, at the last moment, either the hiring process stops after some time, or it gets delayed indefinitely. Please suggest some Jyotish remedies.

Astrologer Ashutosh: You were born under Cancer (Kark) ascendant and Capricorn (Makar) Moon-Sign. You are in the Antardasha of Venus (Shukra) in the Mahadasha of Jupiter (Brihaspati) from 21st March 2020 to 20th November 2022. You are a hard working and very helpful person. But, this helpfulness, generosity and your straightforward nature somehow affects the stability of your job.

In your horoscope, the 10th lord Mars is placed with Saturn in the 3rd house of conflicts and struggles. Also, it is aspected by Sun from the 9th house. This combination of planets is the main reason why you are not able to stay for long in a job and also for the delays in getting a new job. This combination reduces the drive, confidence and perseverance, the personality traits which are necessary to be successful and stable in a job.

This combination also causes big losses of money and increases debt. These financial troubles, both directly and indirectly, negatively influence the success and stability of your career. So, you end up having both job and financial troubles. And, in attempts to solve one problem you end up getting into some other bigger problem.

I am suggesting some Jyotish remedies to you. If you are able to perform them properly then you will get a good and stable job before 15th December 2021. These Jyotish remedies are as follows -

1. Colours - Avoid wearing and using Black, Gray and Green colours in your belongings. This means that you should not wear any garments of these colours and also should not use anything which is made of these colours in your daily life. If you cannot avoid these colours, try not to use them on important occasions like a job interview, an examination or an important meeting, etc. Instead, you should wear and use colours like White, light Blue, Yellow, Pale, Pink and Brown more often.

2. Gemstones - Wear a gemstone for Jupiter (Brihaspati). The best gemstone for Jupiter is a

natural and untreated Yellow Sapphire. Wear it in a gold ring on the index finger or in a gold pendant.

The other gemstone which you should wear is a natural and untreated Moonstone. This is a gemstone for Moon (Chandra). Wear it in a silver ring on the little finger or in a silver pendant.

Make sure that the weight of each of these gemstones is as per your body weight, in the ratio of at least 0.9 carats per 10 kilograms of body weight.

3. Fasting - I suggest that you should keep fasts on Sundays. When fasting on Sundays, have one full meal during the day and consume milk and fruits at other mealtimes. If your health permits it, avoid putting salt into your meals when fasting on Sundays. These fasts will improve your luck and will bring more success and stability in your job.
